

Business Continuity - Support Services

Protect your business with pro-active BC and DR support from Lockhart Leadership:

Lockhart offers a wide range of support services delivered by experienced industry professionals in the business continuity and disaster recovery fields.

Business Continuity

- Identify and protect critical business processes and resources.
- Develop processes to ensure the survival of the organization in times of business disruption.
- Prepare unique business plans to insure a minimum level of security of an organization or company's investments.
- Prepare and train all level of employees to understand their specific responsibilities.
- Audit business processes and continuity plans to ensure a state of readiness.
- Present to the executive and stakeholders what they can expect, from a business continuity plan, if a business interruption or degradation occurs.
- Test and exercise business continuity plans to the extent possible without causing any business interruptions.

Lockhart uses certified Business Continuity Professionals, certified by the Disaster Recovery Institute of Canada and the Disaster Recovery Institute, International of St. Louis, MO.

Disaster Recovery

- "On call" during known or expected vulnerable timeframes.
- Active assistance during activation of the Emergency Operations.
- "Best Practices" from industry standards and experiences.
- "Operational Audits" to ensure overall robustness of an organization's infrastructure related to:
 - **Vulnerabilities** – physical protection and compliance to established guidelines.
 - **Security** – physical site access and administrative security for company assets.
 - **Power** – adequate and properly maintained sources of power for emergency conditions.
 - **Records** – secure and accurate records covering administration and management of specific company assets.
 - **Training** – adequate knowledge by employees responsible for maintaining specific hardware and software within the company.
 - **Restoration** – availability of alternate equipment and facilities in the event of a disaster or major interruption.
